#### Company description

PolyTechnos is an independent European venture capital firm with the objective to nurture technological innovation and to guide exceptional entrepreneurs in growing world class businesses. The PolyTechnos team combines long standing venture capital investment experience with broad international operational and management expertise based on strong technology backgrounds. The majority of the Partners have lived and worked in the U.S. and Europe, bringing an Anglo-American approach to European venture capital. PolyTechnos helps companies turn technology into business by providing support in areas such as strategy, business development, and organization building, and has a track record of being a highly active value-adding investor. PolyTechnos was founded in 1998.
